6. PUBLIC COMMENT: Cindy Hart announced she spoke to Ben Foster, an inspection will happen between now and snowfall. She indicated that an email will be sent when the inspection is completed.

Scott Mooney still questions which bridges Acton is responsible for. He suggests that they should be surveyed.

David Winchell believes the work on the bridges is his responsibility and all other parties should stay out of it.

Lois Michaud believes that the bridges belong to New Hampshire, per a previous conservation committee. On another note, she also wanted to thank the community for the turnout of the Candlelit Visual had for A.J. Davis.

Susan Meehen asked if Selectmen meetings could be held at 6pm instead of 5pm.

Rollin Waterhouse thinks that Dave Winchell is experiencing a disservice on this subject to his title as Road Commissioner.
